

About us

KID_ACTIONS (Kick-off preventing and responding to children and AdolesCenT cyberbullying through innovative monitoring and educatioNal technologieS) is a two-year project that aims to address cyberbullying among teenagers aged 11-19 through interactive education and gamification within formal and non-formal learning settings.

Our mission

KID ACTIONS will help you address cyberbullying in innovative ways via:

a better understanding of the phenomenon of cyberbullying among young people, and of the ways in which you can empower them to respond.

KID_ACTIONS Digital Education Platform

a co-creative and evidence-based approach to combat cyberbullying through education, which will be established through the dialogue with a wide array of education stakeholders.

KID_ACTIONS Training and Educational Pat

increased cross-border and cross-sectorial cooperation on cyberbullying.

KID_ACTIONS Lab
